

IN THE CLAIMS:

This listing of claims will replace all prior versions, and listings, of the claims:

1. (Currently Amended) A printer consumable for replaceable installation in a printer, the consumable comprising:

a printer interface end having a substantially flat outer face with a surface area [upon] within which printer functional interfaces are arranged;

a substantially planar user interface end distal from the printer interface end, the user interface end having an ~~a cross-sectional~~ area that is less than the surface area of the printer interface end, and wherein the user interface end is devoid of printer functional interfaces;

a handle grasping portion integral with the user interface end extending from the user interface end towards the printer interface end;

finger stops integral with the handle grasping portion and positioned between the printer interface end and the user interface end, the finger stops extending outwardly from the handle grasping portion, the finger stops having a combined surface area ~~approximately~~ substantially equal to [the] a difference between the surface area of the printer interface end ~~portion~~ and the ~~cross-sectional~~ area of the user interface end.

2-4. (Canceled)

5. (Currently Amended) The printer consumable for replaceable installation in a printer of Claim 1, wherein the user interface end, the handle grasping portion and the finger stops are formed of substantially flat segments joined by rounded corners.

6. (Currently Amended) The printer consumable for replaceable installation in a printer of Claim 1, wherein the printer functional interfaces include ~~end further comprises a~~ ~~substantially flat face, and wherein~~ at least a fluid port, an electrical interface, and a keying feature [are] positioned on the substantially flat face.

7. (Original) The printer consumable for replaceable installation in a printer of Claim 1, further comprising integrally formed indicia of consumable contents.

8. (Currently Amended) The printer consumable for replaceable installation in a printer of Claim 7, wherein an outer surface of the handle grasping portion further comprises ~~an outer surface; wherein~~ the indicia of consumable contents ~~denote~~ denoting a color of a consumable content; ~~and wherein the indicia comprises at least part of the surface area of the handle by~~ having at least a portion of the consumable outer surface of the grasping portion being substantially the same color as the color consumable content.

9-12. (Canceled)

13. (Original) The replaceable printing consumable of Claim 7, wherein the indicia of consumable contents comprises multiple indicia of consumable contents.

14-49. (Canceled)

-- 50. (New) The replaceable printing consumable of Claim 1, wherein a cross-sectional area of the grasping portion increases from the user interface end towards the finger stops. --
